

SafeVibe launch party

Predators *ruin it for Everyone*

SafeVibe is a movement for everyone who wants to keep predators out of the bars and put an end to sexual assault. The more people who actively get involved (men, women, youth, everyone!), the closer we will be to making social change a reality.

We are having a launch party to create awareness around the campaign and to build a community of people who love to have fun and are committed to ending sexual assault and keeping the party scene safe. Music, drinks, fun. Try our signature SafeVibe cocktail. Wear your most fabulous black and red outfit. No cover. Free raffle ticket at the door. Door prizes given away throughout the night.
